Who We Are

A technology partner you can trust to build, scale, and evolve your digital products. Lumoonix

Lumoonix is a technology company specializing in enterprise software development, AI-powered platforms, Shopify solutions, cloud-native applications, and digital transformation services.

We partner with startups, SMEs, and enterprise organizations to design and develop secure, scalable, and high-performance software solutions. Our expertise spans FinTech, RegTech, E-commerce, ERP, TravelTech, Healthcare, Cybersecurity, Artificial Intelligence, and SaaS platforms, helping businesses automate operations, improve customer experiences, and accelerate digital transformation.

01

Enterprise Software

Scalable, secure applications for complex business requirements — custom ERPs, multi-tenant SaaS, role-based workflows.

02

AI-Powered Platforms

OpenAI, Claude, Gemini and beyond — AI agents, document automation, smart recommendations, compliance tooling.

03

Shopify & Commerce

Custom Shopify apps, full Shopify Plus implementations, and platform migrations across the commerce stack.

04

Cloud-Native

Microservices on AWS, Docker, CI/CD pipelines, and infrastructure built to grow without breaking.

Industries We Serve

Deep domain knowledge across the sectors where software complexity matters most.

01
FinTech & Payments
Cross-border rails, KYC, ledgers, reconciliation.

02
RegTech & Compliance
AML, audit trails, AI-assisted onboarding.

03
E-commerce & Retail
Shopify Plus, headless commerce, performance.

04
ERP & Business Mgmt
Accounting, ops, multi-tenant back-office.

05
Healthcare
HIPAA-aware workflows, patient & provider portals.

06
Travel & Hospitality
OTA platforms, bookings, wallets, CRM.

07
AI / SaaS
Agentic systems, RAG, automation copilots.

08
Cybersecurity
SOC training, threat intelligence frontends.

09
Education & E-Learning
Membership platforms, course delivery at scale.

10
Luxury & Jewellery
Premium storefronts, configurators, gifting.

11
Automotive
Fitment selectors, product configurators, parts.

12
Cloud & DevOps
Networking, ingress, observability surfaces.

The stack.

Modern, battle-tested tools — chosen for the job, not for the hype.

Featured client projects

Platforms we've designed, architected, and built for our clients.

ENTERPRISE-GRADE CROSS-BORDER PAYMENT PLATFORM

Unipayce

Unipayce is a cloud-native FinTech platform being developed for secure domestic and international money transfers. Built on AWS using a scalable microservices architecture, the platform enables financial institutions and payment providers to process crossborder transactions while meeting global regulatory and compliance standards.

FinTech · Banking · Payments · Compliance · AWS Microservices

AI-POWERED AML COMPLIANCE PLATFORM

Cleared Advisory

Cleared Advisory is an intelligent compliance platform being developed to help businesses and compliance consultants simplify Anti-Money Laundering (AML) operations through AIpowered automation. The platform combines compliance workflows, business onboarding, document generation, risk assessment, and case management into a modern compliance ecosystem.

FinTech · RegTech · AI / LLM · AML Compliance · Document Automation

Our Shopify Applications

Published on the Shopify App Store — built and maintained by the Lumoonix team.

SHOPIFY APP

MG – PWA Mobile Pro

apps.shopify.com/mg-pwa-mobile-pro

Convert any Shopify store into a Progressive Web App — delivering a native mobile experience with offline browsing, push notifications, and home-screen installation, without requiring a separate mobile app or developer effort.

Shopify App Store

SHOPIFY APP

MG – Currency Converter Pro

apps.shopify.com/mg-currency-converter-pro

Instantly converts product prices into 180+ currencies, helping international shoppers see prices in their local currency and reducing friction at the point of purchase.

Shopify App Store

SHOPIFY APP

LM – Dynamic Pricing

apps.shopify.com/lm-dynamic-pricing

A rule-based pricing engine that automatically adjusts product prices based on customer location, behavior, inventory levels, device type, and custom schedules — granular pricing control without manual updates.

Shopify App Store

SHOPIFY APP

LM – Blogify

apps.shopify.com/lm-blogify

Transforms written blog content into high-quality audio using AI-powered text-to-speech — improving accessibility, engagement, and content consumption directly on Shopify blog pages.

Shopify App Store

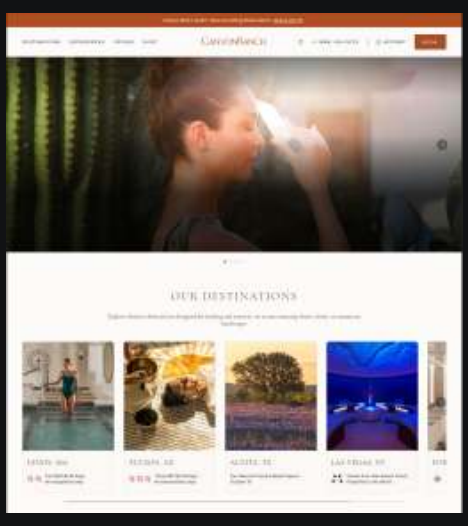

Previous Company Experience

DISCLAIMER: The projects showcased in this section reflect the professional experience and individual contributions of our team members during their employment at previous organizations. They are included solely to demonstrate our team's expertise, technical capabilities, and industry experience — they do not represent projects delivered by or under the management of our current company. All trademarks, logos, and brand names remain the property of their respective owners and are used for identification purposes only.

Shopify Plus & Enterprise E-commerce

Enterprise-level Shopify builds spanning luxury, education, wellness, and consumer electronics.

LUXURY HOSPITALITY · WELLNESS

Canyon Ranch

canyonranch.com

Developed a centralized back-office application for managing spa services, guest appointments, wellness packages, schedules, and itineraries across multiple resort locations. The solution streamlined daily operations and increased operational efficiency through workflow automation.

Luxury Hospitality • Wellness

Shopify Plus

CONSUMER ELECTRONICS · E-COMMERCE

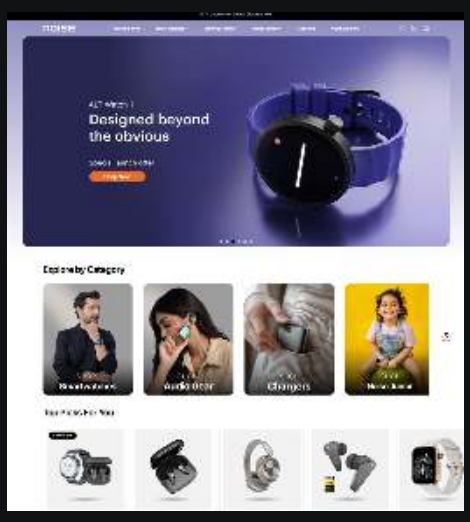

GoNoise

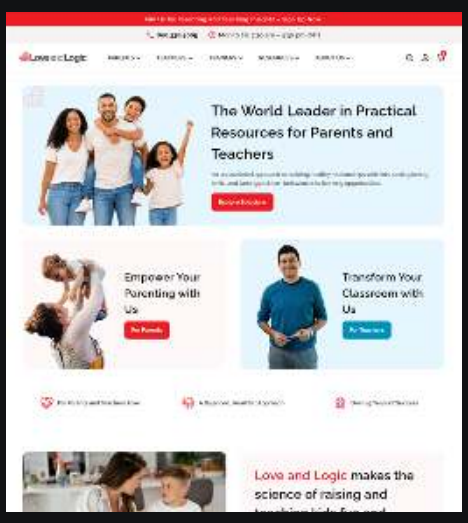

gonoise.com

Contributed to the development and optimization of one of India's leading consumer electronics e-commerce platforms. Built responsive Shopify 2.0 components and improved storefront performance, user experience, and overall responsiveness.

Consumer Electronics • E-commerce

Shopify Plus

EDUCATION · E-LEARNING

Love & Logic

loveandlogic.com

Developed custom Shopify Plus solutions for an educational platform offering digital and physical learning resources. Implemented gifting functionality and built a role-based dashboard enabling students and tutors to manage courses, workbooks, assignments, and learning progress efficiently.

Education • E-Learning

Shopify Plus

EDUCATION · MEMBERSHIP PLATFORM

Amen University

amenuniversity.com

Developed a scalable membership portal supporting ambassadors, facilitators, administrators, and members. Streamlined course enrollment, workbook distribution, progress tracking, and user management while enhancing the overall learning experience.

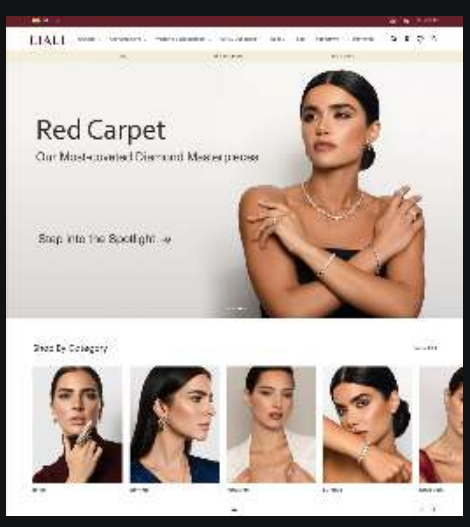

Education • Membership Platform

Shopify

Luxury, Automotive & Retail

Shopify builds requiring precision engineering and premium customer experience.

LUXURY JEWELLERY

Liali Jewellery

lialijewellery.com

Built a custom gift card solution integrated with Shopify using React and the Gift Hero API. Enabled flexible gift card purchases while maintaining a seamless customer checkout experience.

Luxury Jewellery

Shopify

LUXURY JEWELLERY

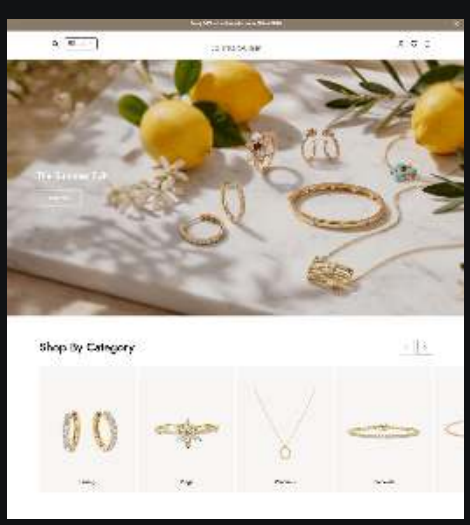

La Marquise Jewellery

lamarquisejewellery.com

Developed a modern React-based collection and search experience while replacing third-party currency conversion applications with a custom-built solution to improve speed, usability, and customer experience.

Luxury Jewellery

Shopify

AUTOMOTIVE E-COMMERCE

SeatCover Solutions

seatcoversolutions.com

Developed enterprise-grade Shopify functionality for an automotive accessories platform, including a custom vehicle fitment system, dynamic product configurator, optimized shopping cart, and upsell/cross-sell features.

Automotive

Shopify Plus

LUXURY RETAIL

Almalaky Dubai

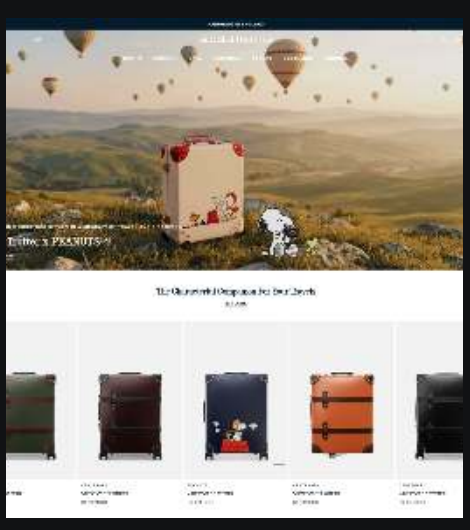

almalaky.com

Developed a custom bundle purchasing solution using Shopify Cart Transformer Functions, allowing merchants to create dynamic product bundles while providing customers with a seamless shopping experience.

Luxury Retail

Shopify

LUXURY TRAVEL GOODS

Globe-Trotter

globe-trotter.com

Contributed to the development and optimization of a premium Shopify storefront for a globally recognized luxury luggage brand — focusing on responsive UI quality, Core Web Vitals performance, and matching the premium nature of the brand online.

Luxury Travel Goods

Performance

Shopify Plus

Shopify Platform Migration

Complex e-commerce migrations handled with zero data loss and minimal disruption.

MIGRATION → SHOPIFY PLUS

Automotive Touchup

automotivetouchup.com

Successfully migrated a large-scale automotive paint e-commerce platform to Shopify Plus while preserving product catalogs, customer accounts, and order history. Completed with minimal downtime and improved storefront performance post-migration.

Automotive E-commerce

Shopify Plus

MIGRATION: WORDPRESS → SHOPIFY

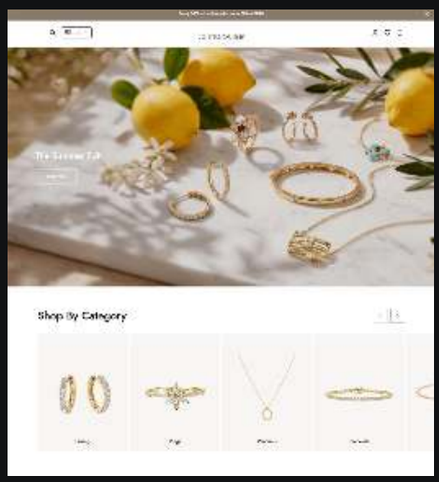

La Marquise Jewellery

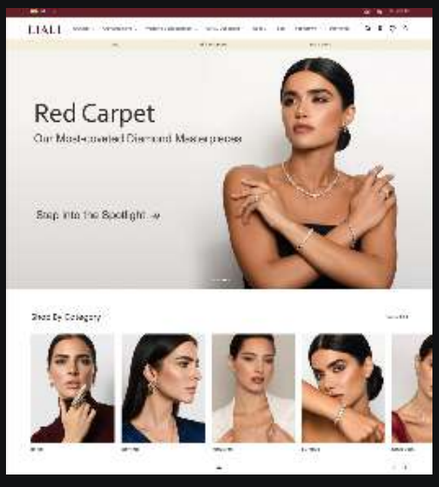

lamarquisejewellery.com

Migrated the complete e-commerce platform from WordPress to Shopify, rebuilding custom storefront functionality while preserving products, content, collections, and customer experience without disruption to live sales.

Luxury Jewellery

WordPress → Shopify

MIGRATION: MAGENTO ® SHOPIFY

Liali Jewellery

lialijewellery.com

Migrated a complex Magento-based jewellery store to Shopify Advanced — successfully transferring product structures, variants, pricing, and custom integrations while maintaining business continuity throughout the transition.

Luxury Jewellery

Magento → Shopify

Shopify Applications & Plugins

Published Shopify and WooCommerce extensions built for real merchant workflows.

SHOPIFY APPLICATION

iCart — Cart Drawer & Cart Upsell

apps.shopify.com/icart

Intelligent product recommendation and upsell functionality that increases Average Order Value (AOV) by displaying complementary products within the shopping cart and checkout journey.

Shopify · Upsell · AOV

SHOPIFY APPLICATION

Stellar Delivery Date & Pickup

apps.shopify.com/…

Delivery scheduling functionality allowing customers to select preferred delivery dates, pickup options, and estimated arrival times directly from the shopping cart.

Shopify · Delivery

WORDPRESS PLUGIN

Best Upsell for WooCommerce

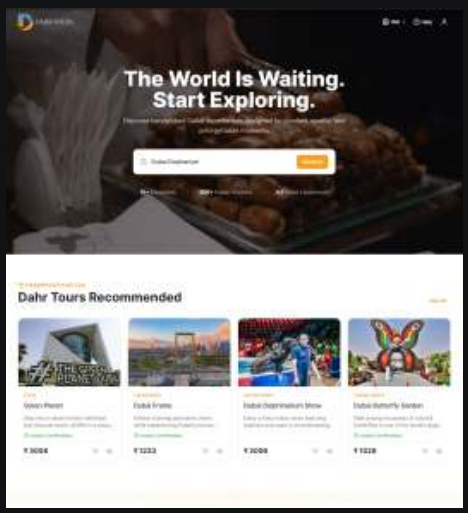

wordpress.org/plugins/…

A WooCommerce plugin combining a side-cart drawer with advanced upsell functionality — enabling merchants to improve customer experience, increase conversion rates, and maximize Average Order Value (AOV) without disrupting the checkout flow.

WooCommerce · WordPress

Travel Technology & ERP

SaaS and enterprise platforms across travel, accounting, and business operations

TRAVEL & HOSPITALITY

Dahr Tours

dahrb2b.com

Architected and led the development of a comprehensive Online Travel Agency (OTA) platform supporting flight, hotel, excursion, transportation, and visa bookings. Includes digital KYC verification, wallet management, ERP modules, Zoho CRM & Books integrations, multilingual support, and AI-powered enhancements.

Travel & Hospitality | OTA | AI

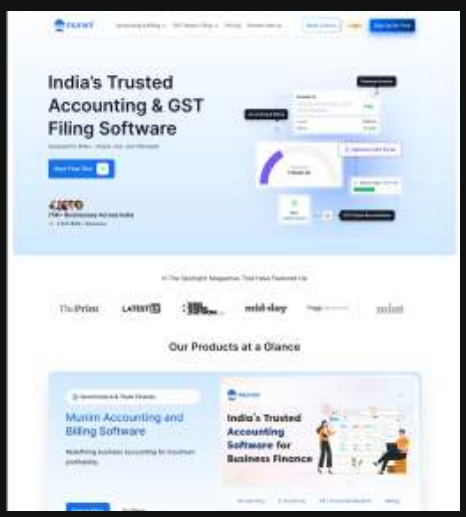

ERP · ACCOUNTING

Munim ERP System

themunim.com

Developed core ERP modules including company management, payment processing, service marketplace, and professional onboarding. Streamlines accounting and business operations for SMEs.

ERP | Accounting | SaaS

JAMstack Projects

Modern JAMstack architecture for content, education, and security platforms.

DIGITAL PUBLISHING · MENTAL WELLNESS

Happiful

happiful.com

Contributed to the development of a JAMstack-based digital publishing platform focused on mental health and wellbeing. Optimized frontend performance and delivered responsive user experiences for content-rich web applications.

Digital Publishing · JAMstack ARTIFICIAL

ARTIFICIAL INTELLIGENCE · EDUCATION

DeepLearning.AI

deeplearning.ai

Contributed to the frontend development and maintenance of a high-performance AI education platform delivering world-class learning experiences using modern JAMstack architecture — powering courses for over 7 million learners.

AI Education · JAMstack

CYBERSECURITY

CrowdSec

crowdsec.net

JAMstack frontend development for an open-source cybersecurity platform focused on collaborative threat intelligence, real-time attack detection, and automated protection.

Cybersecurity · JAMstack

CYBERSECURITY · SOC TRAINING

Cyberbit

cyberbit.com

Contributed to frontend development for a cybersecurity readiness platform enabling organizations to strengthen Security Operations Center (SOC) capabilities through realistic cyberattack simulations and hands-on training.

Cybersecurity · SOC Training

CLOUD-NATIVE · DEVOPS

Traefik

traefik.io

Worked on JAMstack frontend development supporting a cloud-native application networking platform providing reverse proxy, API gateway, ingress management, load balancing, and service discovery for modern cloud environments.

Cloud-Native · DevOps · JAMstack
